WEATHER POLICY

Springtime weather in the Rocky Mountains can change quickly. If we experience high wind and heavy snow in close proximity, the gondola will slow down and sometimes stop. We may also close the gondola for a period of time until the weather passes; typically 45 to 90 minutes. Please plan accordingly for these delays as there is no alternative means of transportation. In the event of an overnight snow storm, the Alpine Coaster will be closed until the track can be cleared. We'll open the ride as soon as possible.

We appreciate your patience and cooperation.
